Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.On April 25, 2010, Stephen Hawking warned that aliens probably exist and that it is possible they will raid Earth for its resources. If aliens are planning to take over Earth, it is safe to assume they would want to weaken us first from a distance, before they actually land on our planet. On September 18, 2008, the Chairman of the Federal Reserve astonished the leadership of the US Congress when he told them that the American economy was in grave danger of a complete meltdown within a matter of days. On October 26, 2008, an ingenious, but academically-challenged graduate student met a brilliant and beautiful college student struggling to achieve her dream in life. Together, they become entangled in an epic war between the 1 and the 99 , and they become unintentional heroes in a struggle to save Earth and humanity. Together, they discover how Einstein-entangled crystals can be used as doorways to distant stars. However, when they open one star door, they discover something alien has been using the crystals for decades to wage a secret psychological and economic war on Earth from a great distance. They discover that when the aliens have made humanity too weak and misguided to protect it from natural and human-made catastrophes, the aliens will arrive to save the planet, in exchange for becoming the new super-rich Kings of Earth. The two students, like all of us, become entangled in a mission to save Earth, and to help prepare humanity for a future filled with both danger and promise.
