

Pumping wells dynamic parameters computer simulation and system optimization [Paperback]

By DONG SHI MIN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 156 Publisher.: Petroleum Industry Press; 1 (2003 December 1st). Book longitudinal vibration analysis of sucker rod mechanics model. and adapt to a wide range of pump valve new model of the law of motion; fluctuations in motor speed. valve hysteresis closure and downhole gas-water multiphase flow. improvement and development of a computer simulation model of the dynamic parameters of the pumping wells; unit module simulation method to solve the highly coupled mixed-model simulation algorithm; improved ground drive transmission power of each node. the cell average operating efficiency of the calculation method; multiphase flow conditions. the discharge coefficient of the pumping wells and the method of calculation of the effective power. the development Theory of Computation of the efficiency of the system of pumping wells; established based on system dynamic simulation machine lever pump system optimization design methods; developed under the Windows operating environment. the dynamic parameters of pumping wells computer simulation and system optimization design software. Read book adaptation in production engineering and technical personnel. Four Satisfaction guaranteed, or money back.

Reviews

Very good e-book and valuable one. It can be written in basic words and phrases and not confusing. You will not really feel monotony at whenever you want of your own time (that's what catalogues are for concerning should you check with me).

-- **Mr. Antwon Frami**

This is an amazing publication i actually have at any time go through. It is actually really interesting through reading through period. Its been developed in an exceptionally straightforward way which is merely following i finished reading through this publication where actually altered me, modify the way in my opinion.

-- **Noah Padberg**
